**IG FOLLOWERS:** 10.6K

## ABOUT...

- Keymah was born in Miami, but she moved around a lot as a child. She comes from a large family of 11 siblings and is the only girl on her mom's side of the family. Raised by a single mom, she didn't meet her dad until later in life. Her upbringing was rarely easy – in fact, Keymah and her brothers were in and out of the foster care system for several years. Keymah had a very strained relationship with her mom when she was young (but has since grown closer to her now that she is a bit older). Keymah never had a chance to get to know her dad well (and he unfortunately passed away recently).
- When it comes to singing, Keymah began flexing her vocal chops at 4-years-old after performing in a pageant. She soon began singing any opportunity she could – at school, in church and for talent shows. At 15-years-old, Keymah joined a girl group named, Karma, which she credits to giving her a much-needed confidence boost as a performer. During her time with the group, Keymah traveled across the country performing shows. After high school, Keymah decided she wanted to focus on her studies in college, so she left the group and became a solo artist. Soon after, she was able to sign a deal with Flo-Rida's label. After a few years learning under Flo-Rida, she left the label and has been independent for the past 2 years.
- Keymah sees herself as an R&B/pop singer with a dash of rock added in for good measure. On TikTok, she currently has 24K followers and loves showing off a different side of her personality on the platform. Her biggest dream is become successful so that she can make her family proud, as they have always envisioned Keymah being the "golden child" of the family.
- Her biggest motivation has been her younger brother who is in the hospital battling lupus. Keymah would love to be able to support him (and the rest of her family) financially. She explains her main obstacle is simply a lack of resources. She's been through a lot of tough times in her life and she is doing everything in her power to avoid regressing to what life used to be like.
